

I enjoy XM radio immensely. I do not have to listen to campaign propaganda, commercials and non stop DJ's telling raunch jokes. I enjoy the selection of music and I find the traffic reports to be accurate and timely. The FCC's attention would be better directed at stopping the soft porn found on the Television stations which can be found daily. I won't even let my children watch TV until I am home to supervise them due to the garbage that you allow to be shown 24 hours a day on TV.

XM is a real benefit to it's loyal listeners!      LEAVE IT ALONE!!!
